Governance and Risk Management

VISION

*We empower Australian government departments to benefit our citizens' lives and national security through **data-driven decisions and disciplined delivery with trust and integrity.***

DISCRIMINATORS

Encompass deploys specialised, data led, program management team members who bring best practices and proven use cases from industry, state and federal government to operate alongside defence.

- Australian, female led organisation comprising >70% ex-servicemen/women.
- Extensive large-scale government implementation experience.
- Tapping Corporate and Industry best practice for Government and Defence.
- Specialist data-led delivery, reporting and insights.
- Evidence based approach to measuring group performance and outcomes.

DEPENDABILITY & ENGAGEMENTS

- De-Risking Transformation through Data Analysis and Process Delivery.
- Enduring Change through transferred knowledge and repeatable actions.
- Leader Support through Whole of Program analysis for blind spot elimination.

Encompass have worked with Departments of similar size and complexity to Defence, delivering tangible, lasting outcomes across State and Government Enterprise (NBNC).

Active Defence Projects through MSPs:

- Navy Shipbuilding and Sustainment Group - MIWS.
- Plan Galileo - Garden Island Defence Precinct Transition.
